PROFESSIONAL SUMMARY

A full-stack web developer with a specialization in MERN stack and having 10 month experience in Java, Springboot, and AWS. Passionate about developing high-quality, user-friendly platforms and continuously expanding technical knowledge to contribute to exciting projects. Seeking a challenging position at a dynamic company to leverage skills and experience to deliver innovative solutions.

WORK EXPERIENCE

Company - MyGate   APR 2022 - JAN 2023
Role - Associate Software Engineer

- Contributed to the development of a security app with an integrated feed feature, resembling social media platforms.
- Implemented dynamic updates for post display, call management, and chat count.
- Utilized React, HTML, CSS, JavaScript, and Redux to enhance user experience.
- Developed a backend project from scratch, creating micro-services using Java Spring Boot and REST APIs.
- Utilized MongoDB, and SQL for efficient and reliable database management.
- Leveraged various AWS services such as EC2, ECS, S3, Load Balancer, API Gateway, SES email service, and CloudWatch to ensure scalable and robust application architecture.
